

LABELING SOLUTIONS FROM ID TECHNOLOGY

Leading The Industry With The Model 250 Label Printer Applicator From ID Technology

**IDT MODEL 250 NAMED THE
BEST-SELLING PRINTER/APPLICATOR
SYSTEM IN NORTH AMERICA!***

Seamless integration into your existing systems.

The Model 250 delivers next-generation features, functionality, construction and the simplicity of use to ensure the industry's lowest cost of operation. Its modular design features hot-swap modules, making setup and replacement quicker and easier, resulting in maximized uptime and increased capability while its flexibility will allow it to be configured to fit your production environment.

The IDT Advantage

Being an industry leader in labeling, coding and marking means ID Technology offers lower cost of ownership and the highest levels of performance and flexibility in every solution we provide.

Next-Generation Modular Design Gives The Model 250 Unmatched Performance.

Configure to your needs – quickly and easily – for ultimate versatility and low operating costs.

Electronics Module

Advanced microprocessor control, easy user-configuration, and easy-to-read display make setup quick and simple. Reset default settings by simply recalling factory settings.

Unwind Module

12.5" unwind delivers a 1:1 ratio of labels to ribbons (16.5" unwind optional), resulting in maximum performance and minimal downtime.

Pneumatics Module

Single-manifold design coupled with rugged components and advanced features like LED read-outs and optional plug-in tamp blow give pneumatic assemblies optimum functionality.

LABEL PRINTER APPLICATORS

Flexibility, reliability and ease of use all add up to the lowest cost of operation in the industry.

Simplicity

Setting up and operating the Model 250 Printer Applicator is fast and simple.

- User-configurable interface for easy, fast setup and operation
- Easy to integrate PLCs, scales and more
- Backlit, 2-line LCD and tactile membrane keypad

Flexibility

Regardless of your application or production environment, the Model 250 integrates seamlessly into existing production lines.

- Can be mounted in any orientation – top, bottom or side label application
- Quickly switch between application modules, preserving initial investment
- Easily moved from line to line

Serviceability

The Model 250 Printer Applicator features modular design for maximum serviceability.

- Core modules swapped in under five minutes
- Regulators, valves & gauges on all devices
- Service position tamp assembly for easy operator access

Durability

Model 250 Printer Applicator systems are engineered and built to be the most dependable in the industry.

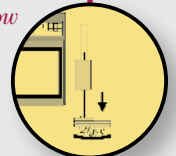

- 1" stainless steel shaft for Unwind module
- Sealed bearings for longer life
- Solid all-metal construction with 1/2" face plate

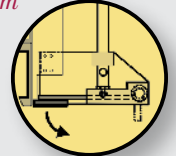

IDT Model 250 systems are compatible with a range of print engines and application modules to create highly tailored systems unique to your applications.

Application Modules

Apply-Only Module Gives You Automatic Labeling Flexibility.

Replace your SATO, Zebra or Datamax print engine with a high-speed, apply-only automatic label module and add a new level of versatility to your Model 250 system. Choose from dispense speeds of 4", 6", 8", 10" or 12" per second on label stock up to 7" wide. Simple, hot-swappable design makes it easy to use, minimizing downtime, and because it uses the same base assemblies as the standard 250, you won't need an additional technician to service it.

Make A Great Solution Even Better – Use Only Ribbons and Labels From IDT

You can optimize the performance of your Model 250 Printer Applicator by exclusively using labels, ribbons and other supplies from ID Technology, just ask your IDT representative for more information. The Model 250 Printer Applicator works great any way you choose, but it is designed to deliver ultimate performance with materials developed and approved by ID Technology.

To make the 250 even better, ID Technology provides a limited, lifetime warranty extension for all IDT 250 series printer applicators ensuring the lowest cost of ownership for all of our customers.

The labeling, coding and marking specialists

The most valuable aspect of the IDT Advantage is the support. Our specialists stand ready to help you design a turn-key identification system that meets the needs of your production environment. No matter how big or small your labeling requirements may be, IDT has a print-apply solution to meet every need. And only IDT has local PMMI-certified technicians that make up our nationwide sales and service network, ensuring that you can count on ID Technology to keep you up and running.
