To Our Valued Customer:

Continued cost increases for resin, plasticizer, and processing additives used to manufacture PVC overwrap films, along with increases in packaging costs, make it necessary for LINPAC Packaging Filmco Inc. to raise its prices by 8% effective March 22, 2010 on all PVC films (catering, specialty and meat film).

This increase is in addition to our 8% increase announced December 28, 2009. The March 8% increase is effective with orders received on and after Monday, March 22nd. Orders placed by Friday, March 19th that call for immediate shipment will bill at your current price. Orders received on or after March 22nd will invoice at your new prices.

All orders will be limited to normal order quantities for your specific account. Orders exceeding this amount may be returned to you for adjustment and could delay delivery, so please adhere to this request as inventory levels are very tight at this time of the year.

Please contact your local Filmco representative with any questions.

We appreciate your business and ongoing support of our products.

Sincerely,

Karen Lynn Gail
Sales and Marketing Manager
LINPAC Packaging Filmco, Inc.
