

February 18, 2010

Dear Valued Customer,

As you may know, all of the integrated companies have recently announced a price increase on liner and medium due to a tightness of inventory in the January 25th, 2010 publication of Pulp and Paper. MaxPak has made every effort to absorb as many of these increases in rising costs such as energy, transportation and fuel when available. Unfortunately, now compounded by the increase of containerboard we are forced to implement an increase of 10% on all corrugated products effective with shipments on or after March 8st, 2010.

It remains our focus that MaxPak continues to provide our customers with utmost satisfaction relying on quality, service and on-time delivery. As a valued customer, we want to take this opportunity to give you as much advance notice of current and future market conditions as possible. Your sales representative will be contacting you with more specific information as well as to answer any questions you may have.

We value your business and appreciate the opportunity to be your corrugated packaging supplier. Thank you for your continued support and look forward to serving you in the future.

Sincerely,
