

September 16, 2011

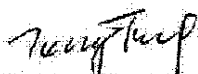

To Our Valued Stretch Film Customers:

Our raw material resin producers have announced another price increase. Continued strong demand and low inventories have been stated as major reasons for this price increase. Because of this escalation in resin price, we regrettably must increase our film price. Therefore, effective with all orders received on and after October 3, 2011, there will be a 6% price increase for all AmTopp Stretch Film products. All orders must call for immediate delivery.

It is very important to take note that we will strictly limit orders to a quantity less than one month of your average monthly shipments during the last six months. We must reserve the right to limit orders during this period and reserve the right to accept and decline any order. Please contact your sales representative if you need any additional information.

Thank you for your continuing support of AmTopp stretch film products.

Sincerely,

Tony Tseng

Marketing Director
